

HOME OXYGEN THERAPY

by

DREAM SLEEP RESPIRATORY
Breathing Made Easy

Alberta's trusted home oxygen therapy
provider — delivered right to your door.

Fast, compassionate, and fully coordinated
with your healthcare team.

What to Expect

Everything you need for safe, comfortable oxygen therapy at home — from setup to ongoing care - Let Dream Sleep support you every step of the way.

Hospital referral:

We work with your health-care team to arrange your home oxygen.

Assessment:

We collaborate with your physician to evaluate your requirements and provide the appropriate equipment and therapy.

Home setup:

Our team delivers, sets up and teaches you how to use your equipment.

Follow-up:

We provide ongoing support to ensure your therapy is working for you.

IMPORTANT INFORMATION & DISCLAIMER: Home oxygen therapy is based on individual clinical need and may require a prescription, assessment and/or authorization by a qualified healthcare professional. Equipment and services are subject to clinical requirements and availability. Funding through AADL, NIHB, private insurance or other benefit programs is subject to eligibility and approval. Dream Sleep may assist with funding documentation but cannot guarantee coverage or reimbursement. Information in this brochure is for general informational purposes only and does not replace professional medical advice, diagnosis or treatment. Pediatric and neonatal services are provided according to individual clinical requirements and availability. In a medical emergency, call 911.

Why Choose Dream Sleep?

- Locally Owned
- 15 Locations
- Experienced Team
- 24/7 Support
- Personalized Care

Comprehensive Home Oxygen Services

- ✓ **In-Clinic Testing:**
Comprehensive testing in-clinic or at home to determine your individual oxygen therapy needs.
- ✓ **Frequent Follow-Up:**
Our team monitors your progress and adjusts your oxygen prescription as your needs change.
- ✓ **Modern Equipment:**
Quiet, compact concentrators, lightweight portable options, home fill stations, and oximeters to fit your lifestyle.
- ✓ **Funding Assistance:**
We work directly with AADL, WCB, NIHB, and private insurers to ensure your therapy and equipment are covered, giving you complete peace of mind.
- ✓ **Expert Support:**
Respiratory Therapists and nurses consistently available to provide education, support, and ongoing care.

Pediatric & Neonatal Oxygen Care

- ✓ **Specialized Equipment:**
Equipment designed specifically for infants and children.
- ✓ **Experienced Neonatal Staff:**
Respiratory care professionals with specialized neonatal and pediatric experience.
- ✓ **Home-Fill Technology:**
Our program utilizes home-fill technology whenever appropriate, reducing cylinder exchanges and equipment handling to help maintain a clean oxygen supply.
- ✓ **Province-Wide Support:**
15 locations and growing across Alberta to ensure you are cared for wherever and whenever you need us.
